EDUCATION

- **SRM University** — Chennai, India
  Bachelor of Technology - Information Technology; GPA: 8.73 — *September 2021 - June 2025*
  Courses: *Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Networking, Databases*

SKILLS SUMMARY

- **Languages**: Python, C++, JavaScript, SQL, Bash, Solidity
- **Frameworks**: ReactJS, NextJS, ExpressJS, Foundry, Wagmi, Ethers.js
- **Tools**: Docker, Git, Remix IDE, Figma, Vercel, Netlify
- **Platforms**: Linux, Web, Windows, AWS, Kali Linux
- **Soft Skills**: Leadership, Event Management, Public Speaking, Time Management, Technical Writing

EXPERIENCE

- **Permissionless** — Remote
  Developer · Internship — *October 2024 - Present*
  - **Client-Focused Development**: Developed responsive websites for clients using the latest technologies, ensuring mobile-friendly designs.
  - **Deployment Maintenance**: Handled deployment and ongoing maintenance to ensure smooth and timely delivery of projects.

- **MallEz** — Remote
  Full Stack Developer · Freelance — *August 2024 - Present*
  - **Full-Stack Application**: Created a robust full-stack application that streamlined data management with Firebase, resulting in a 50% reduction in data retrieval time and enabling real-time updates for over multiple users.

- **Matex Consultancy** — Remote
  Penetration Testing Intern · Internship — *June 2024 - August 2024*
  - **Penetration Testing**: Conducted penetration testing to identify critical vulnerabilities and provided detailed reports with recommended fixes.

PROJECTS

- **Launch It - Token Launch Platform**: Simplifying the creation and launch of meme coins and tokens. This platform offers an intuitive interface, low fees, and strong security.Tech: ReactJS, NextJs, TailwindCss , Wagmi, Solidity, Drizzle Studio

- **MallEz** : Built a modern, user-friendly website with an admin dashboard for dynamic data updates to the frontend. Integrated Firebase for data management and deployed on Vercel. Tech: ReactJS, JavaScript, Tailwind CSS, Vercel, Git/GitHub, Framer Motion, Firebase.

- **Token Craft**: Creators tokenize designs for fair compensation with dynamic pricing, secured by blockchain to reduce piracy and protect income, allowing designers to focus on their craft. Tech: ReactJS, Tailwind CSS, Git/GitHub, Solidity, Blockchain, Rainbow Wallet.

- **Hackverse'24 Website**: Built the Hackverse 2024 website with Next.js and Tailwind CSS, providing event information, schedules, speakers, and registration in a visually appealing interface. Tech: Next.js, ReactJS, Tailwind CSS, Git/GitHub

HONORS AND AWARDS

- Secured 2nd position in the DimoVIT Ap Web3 Hackathon, showcasing blockchain and Web3 development skills. Awarded a prize of 300 Dollars

- Achieved finalist status in the prestigious PECAN+ CTF competition, organized by IIT Pals and Edith Cowan University, Australia.

- Secured 2nd position in a CTF competition at the Zyverse Symposium, SRM Valliammai, with a special mention for the Fastest Flag Submission. Awarded Rs 3000 and 500.

CONFERENCE AND WORKSHOP

- **IBW 2023 and 2024 (Indian Blockchain Week)** — Bangalore, India
  Participated in India's flagship Web3 events, including ETHIndia and Polygon Connect.

VOLUNTEER EXPERIENCE

- **Lead Organizer of Hackverse Web3 Hackathons (1.0, 2.0, and 2024)** — Chennai, India
  Organized Hackverse 1.0, 2.0, and 2024 with 6000+ registrations and 500+ hackers from India.

- **Lead Organizer of Hacker House Goa** — Goa, India
  Organized a International Web3 hackathon with 7000+ registrations, 350+ hackers, and 492K prizepool
